Beckki explained that a public hearing was part of applying for a CDBG grant. The purpose of this public hearing was to announce to the residents of Huntsville Town that Huntsville intends to apply for CDBG money and allow the public to make suggestions for the use of those funds.

TCM Wendy McKay explained she has been working with the CERT teams in Huntsville to survey the families in Huntsville Town on their household incomes. The CDBG funds are used on projects benefiting low to moderate income families. Mayor Truett stated CDBG has been an important resource to Huntsville Town in past years. Because of CDBG, Huntsville's water system has been upgraded, the maintenance shed has been built, the wishing well project was funded and various other infrastructure has been upgraded. The funds have been important to all residents of Huntsville Town.

TCM Wendy McKay talked about proposing a community center for Huntsville Town. She explained we would want to add additional funding to include a museum and other Town government offices. The community center could provide indoor recreation for residents, and a gathering place for community groups.

Jeff Hyde asked where the community center would be planned. TCM Wendy McKay stated they are looking at the old school property for this center. She explained the desire is to sell the current Town Hall and move to a larger facility. The new center would meet three needs that Huntsville currently has: larger Town offices, history museum, and community center with gym and kitchen for community groups and residents. TCM Wendy McKay stated we could monetize the center with rentals for recreation leagues and group rentals such as family reunions.

Jeff Hyde stated he feels this goes against Huntsville's General Plan. He went on to explain that it was the desire of the Town not to have an ATM on every corner of Huntsville. Currently the Compass Rose Lodge has an events center, the Library has an events center, The Mercantile has an events center and Huntsville Square has an events center. TCM Wendy McKay explained it is possible to rent the facilities but the groups that will benefit from the community center are groups like CERT, aa, local quilting groups, and scouts. TCM Sorensen sees the purpose as an expanded Town Hall more than an events center.

TCM McKay outlined the next steps in the process in applying for CDBG.

Dakota Hyde commented he knows that there are three parcels of land on the old school property. He is wanting to know which parcels will be used. He also urged the Town Council to carefully consider the use of limited C-1 land towards a healthy commercial environment versus community use. Mayor Truett commented the Town Council would be thoughtful about which parcels could be used. **(See separate public hearing minutes in Attachment #3)**

TCM Richard Sorensen motioned to close the public hearing and open the regular session of the Huntsville Town Council Meeting. TCM McKay seconded the motion. All votes aye.

Votes are reflected below. Public Hearing is now adjourned at 7:36 p.m. and the regular Town Council Meeting is resumed.

2-Discussion and/or action on AED purchase for Town Hall. (See Attachment #1) Mayor Truett explained the CERT team and TCM McKay has done a wonderful job in updating the CERT teams, getting training and updating equipment. Mayor Truett would like to see an AED at Town Hall for an emergency. Weber Fire has volunteered to train employees how to use the AED. The cost is \$2200. TCM Richard Sorensen stated he has had some AED training and wanted to know if this model has voice activated technology. Mayor Truett stated the AED talks the user through the process of using it. He believes it is an investment for the Town. **Mayor Truett motioned to purchase the CR2 AED.** Motion seconded by TCM Wendy McKay. TCM Max Ferre' wants to know where the funds will come. Mayor Truett explained the funds will come out of the General Funds. Roll Call Vote. Votes are reflected below. All votes aye. Motion passes.

COUNCIL MEMBER UPDATES/PRESENTATIONS:

Mayor Truett:

- 1) **Discussion on Weber County Storage Unit Standards** – Mayor Truett reported he spoke with Rick Grover about the storage unit code that has now been implemented in Weber County. The storage has to sit off the road a particular distance and an office or building/business would need to be in front of the units. The business needs to obscure the units. There are other standards like design and location on a street. **(See Attachment #2)**

TCM Bingham stated one of the changes that Weber County made was outdoor commercial storage was not allowed. TCM Bingham stated there are many jet skies south of Town in the tree line. TCM Bingham stated he is thinking through a code enforcement complaint against the storage of the current stored jet skies.

- 2) **Support of Hyde's Solar Garden:** Compass Rose Lodge and the Halo Observatory has teamed up with the Mountain Arts Community Group to present a fun project. The proposal will be submitted to RAMP for funding. The Solar Garden is a scaled modeled solar system starting with the Sun and spread the scaled distanced throughout the Valley. **(See Attachment #4)** The starting point would be the Compass Rose Lodge and the ending point would be the moon at North Fork Park. The Town Council received the presentation in a favorable manner and are willing to support the project with a letter for the RAMP grant.

TCM Richard Sorensen: Matt Cardon is going to be replacing Jake Songer as a manager for the ice rink. The ice rink has become very popular. Jessica Engstrom is taking over the skate rental. They are renting the skates out on Tuesday nights and Saturday days. An electronic app has been set up for donations.

TCM Blake Bingham: No Planning Commission update. Ron Gault has been working on the auto chlorinator at the water plant, but there are some additional costs that will be added to the Town Council Meeting Agenda next meeting.

TCM Wendy McKay asked if we are required to treat Huntsville water since it comes from a pure source. TCM Bingham replied that there are required to treat the water because of the configuration of the system.

TCM Wendy McKay was wondering if you are required to renew water rights with the Division of Water Rights. TCM Bingham stated in his professional work he actually renews those applications. He stated the DWR wants to see the use of wells that are drilled within 5 years. The Town is required to show proof on an exchange. Prior to TCM Bingham taking his position on the Town Council, he filed the extension for the Town.

CLOSING ITEMS:

- 1) **Public Comment:** There were none.
- 2) **Approval of the Bills, November 2020.** TCM Max Ferre' motioned to approve the bills for November 2020. TCM Wendy McKay seconded the motion. Roll Call Vote. All votes aye. Votes are reflected below. Motion passes.

- (5) If property owners fail to operate or maintain cross-access infrastructure that was required by the County under this section, the County may pursue enforcement measures as provided in this Land Use Code.

- (4) The lot's street frontage shall be developed as a complete street, as specified in Section 104-21-4(c).
- (5) Exemption: The requirements of this Subsection (g) shall be waived if:

SECTION 9: AMENDMENT “Sec 104-21-1 Purpose And Intent” of the Weber County County Code is hereby *amended* as follows:

AMENDMENT

Sec 104-21-1 Purpose And Intent

- (a) The purpose of the CV-1 and CV-2 zones is to provide suitable areas for the location of the various types of commercial activity needed to serve the people and commerce of the Ogden Valley in unincorporated Weber County. It is also to separate, into two commercial zones, uses based upon the type of activity which are compatible and complementary, as well as the intensity of land utilization and accessory use needs. The CV-1 Zone (Neighborhood Commercial) has been established for the purpose of providing shopping facilities and services within neighborhoods in the Ogden Valley, primarily for the convenience of people living in a neighborhood. The types of goods and services which may be offered for sale have been limited to "convenience goods" such as groceries, drugs, and personal services such as a barber and beauty shop, distinguished by the fact that the principal patronage of the establishments originates within the surrounding neighborhood. Consequently, other uses such as automobile sales, furniture, and other stores, in which the principal patronage originates outside the surrounding neighborhood, have been excluded from the CV-1 zone. The maximum size of a CV-1 zone node shall be approximately five (5) acres exclusive of minimum lot widths and areas. The CV-2 Zone (General Commercial) has been established for the purpose of providing a broad range of commercial services and goods to serve a larger region of the county like the Ogden Valley. Areas with CV-2 zoning have a principal patronage which originates throughout the Ogden Valley or is due to recreation in the Ogden Valley. CV-2 areas are to be a commercial hub or node of activity. These areas, as outlined in the General Plan, are to be near the traditional town centers of the Ogden Valley and not to be strung out along the highways. Uses in the CV-2 Zone may provide goods and services not typically found amongst commercial areas within resorts including automobile sales and service, sporting goods, service stations, hotels, and professional offices.

Car wash facilities shall be set back from the street right-of-way at least 60 feet. The frontage of the lot shall, for a depth of at least 30 feet, be reserved for future street-~~

front commercial buildings and related improvements. One bay car wash, four spaces in the approach lane; Two bay car wash, three spaces in the approach lane for each wash bay; Three or more bay car wash, two spaces in the approach lane for each wash bay. *Car wash.* A car wash shall be permitted subject to the following restrictions: Modification of existing site improvements that affect less than 25 percent of the lot area is exempt from complete street requirements. The off-street vehicle spaces or queues required shall be as follows: For portions of a lot's frontage in the CV-1 or CV-2 zone where a complete street is not required by this Subsection (c)(1), a 10-foot wide sidewalk is required, as prescribed by the Planning Director after consultation with the County Engineer. *Complete street.* A complete street, as defined in Section 101-1-7, shall be installed to span the street frontage of the lot for the width of existing or proposed completed improvements, including parking facilities and required landscaped area. If this width is 75 percent of the lot width or greater, the complete street shall span the entire street frontage of the lot in the CV-1 or CV-2 zone. A complete street design shall include a ten-foot pedestrian pathway or

sidewalk, pedestrian lighting, shade trees, appropriate clear view of intersection, and shall also include safe street crossings for pedestrians in no greater than 300-foot intervals. The complete street design, tree species and planting techniques, and pedestrian lighting are subject to approval by the Planning Director, after consultation with the County Engineer. *Dwelling unit.* A dwelling unit is allowed, as part of a mixed use building, only if allowed in section 104-21-5, and only when specifically assigned to the property as part of a development agreement approved prior to July 1, 2016. When fronting on a public or private street, buildings that contain dwelling units shall comply with the following: The building shall provide street-facing commercial space, at the street level, that is accessible from the street, for the entire length of the building's street frontage; The building shall not be setback any greater than 20 feet at any point from the property line that runs parallel to the public or private street; The building shall be subject to the requirements of chapter 108-1 and chapter 108-2; and The lot's street frontage shall be developed as a complete street, as specified in section 104-21-4(e). *Perpetual building maintenance agreement.* When permitted by this chapter as a way to allow reduced side or rear setbacks, a perpetual building maintenance agreement is required between the building owner and the affected adjacent property owner, which shall allow for construction and maintenance of the side or rear of a commercial building, and shall be reviewed for compliance with this section by the Planning Division and County Attorney's Office; place responsibility on the building owner for prompt repairs and maintenance of the side or rear of the building; require allowances of access to the property for repairs and maintenance purposes; be signed by the owner of the commercial building and the adjacent property owner to be considered valid; and be recorded on the title of both properties. *Cross-access and cross-access easement.* Access to adjacent existing or future development without the need to access the public right-of-way is in the interest of public safety. As such, at a minimum, each developed lot or parcel shall have two points of ingress and egress, at least one of which shall be stubbed to adjacent property where practicable. When locating a cross-access easement or designing the cross-access infrastructure, good faith efforts shall be made to coordinate the location and design with the adjoining land owner. The Planning Director may require the cross-access to be located in a manner that optimizes traffic circulation on the properties or in the area. Construction of the cross-access infrastructure

~~shall be completed prior to the issuance of a certificate of occupancy for any structure on the lot or parcel, or a completion bond may substitute for completion if allowed by the County Engineer. When a lot or parcel is being developed that abuts an existing cross-access easement or existing cross-access infrastructure, a reciprocal cross-access easement shall be provided on the same lot line or parcel line in the same location and of equal width. The reciprocal cross-access infrastructure shall be constructed to the same standard as, or better than, the existing cross-access infrastructure on the adjacent parcel. A cross-access easement shall be recorded on the title of all affected properties, along with a perpetual operation and maintenance agreement between the property owners that specifies, at a minimum, that the infrastructure will be operated and maintained by the property owners in a manner that is safe and usable for two-way vehicle traffic. If property owners fail to operate or maintain cross-access infrastructure that was required by the County under this section, the County may pursue enforcement measures as provided in this Land Use Code.~~

COMMUNITY DEVELOPMENT BLOCK GRANT PUBLIC HEARING:

Mayor Truett opened the public hearing for the CDBG program and stated that the purpose of the public hearing is to provide citizens with pertinent information about the Community Development Block Grant program and to allow for discussion of possible applications for the 2021 funding cycle. It was explained that the grant money must be spent on projects benefiting primarily low and moderate-income persons. The Wasatch Front Regional Council, in which Huntsville Town is a member, is expecting to receive approximately \$1,000,000 in this new program year. All eligible activities that can be accomplished under this program are identified in the CDBG Application Policies and Procedures Manual and interested persons can review it any time. Mayor Truett read several of the eligible activities listed including examples, such as Construction of public works and facilities, eg., water and sewer lines, fire stations, acquisition of real property, provision of public services such as food banks or homeless shelters, Mayor Truett indicated that in the past Huntsville Town has received multiple grants that have provided funds for upgrading our maintenance facilities, purchased property, provided a well for culinary water and replaced aging water lines in Town. The city has handed out its capital investment plan as part of the regional "Consolidated Plan". This list shows which projects the city has identified as being needed in the community. It was asked that anyone with questions, comments or suggestions during the hearing please identify themselves by name, before they speak. The clerk will include your names in the minutes and we would like to specifically respond to your questions and suggestions during the hearing. Mr. Jeff Hyde asked if a community center would be needed. Council Member McKay responded to suggestion by stating that many community groups do not have places to meet in our rural community. Council Member McKay then opened the meeting up to further suggestions from the audience. Mr. Dakota Hyde said that giving over land in a C-1 zone could hurt the business district. Mayor Truett responded that the Town Council would be mindful of the revenue lost and the parcels that would be affected. Town Council member McKay then asked if there were any other suggestions? The hearing was adjourned at 7:36 p.m.
